SUPPORTING QUIET CHILDREN

Why are some children confident speakers at home, but almost totally silent in early years settings and school? Are they shy? Very quiet? Or do they have Selective Mutism? It is vital that we understand what these terms mean, so we can build positive approaches that work.

Join teacher and early language consultant Michael Jones in an exploration of this important subject, with practical strategies for helping children develop confidence as speakers.

TOPICS COVERED:

- Children who are very shy
- Children who are very quiet
- Selective Mutism
- High sensitivity
- Positive approaches to support
- Building positive links with families
