

Boost the communication skills of children with speech and language difficulties

Let's Get Talking!

Michael Jones & Jo Belsten

only £15

PLUS POSTAGE

This practical book provides plenty of fun ideas to boost the communication skills of children. Each page features a fun activity that is easy to set up and offers options for simpler, harder and extension activities. Games are helpfully grouped into skills including:

- Settling in and getting relaxed
- Joining in
- Vocabulary development
- Sorting and matching
- Listening and taking turns
- Role play
- Story sharing.

The introduction includes useful information about how children learn to talk and provides helpful definitions of some common difficulties that some children may encounter on their way to becoming confident speakers. Games can be played with individuals, in pairs and in small groups throughout any early years and primary setting. 50pp, A4.

"I would recommend this book for nursery staff, nurture groups and reception classes to show them how they can add value to circle time sessions, small groups and individual time. It's great for Speech and Language therapists to loan out too."

Libby Hill, Smart Talkers Pre-School Playgroups
